## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 53-143, drawn to a an apparatus for executing an executable program displaying data having advertisements therein, classified in class 705, subclass 14.
  - II. Claims 144-235, drawn to an apparatus for exchanging information with an apparatus for executing an executable program having advertisements therein, classified in class 705, subclass 14.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as transmitting said advertisement to said apparatus for executing an executable program. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. A telephone call was made to William S. Frommer on January 8, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
